

SQUARE TUBE SHIELD WITH BASE BRACKET

Square Tube Shield with Base brackets are used to erect an electric fence and are supplied with insulators. Available in powder coated, hot dip galvanised, or a combination of both. The choice of a bracket should provide a good enough barrier to prevent a criminal from getting through or over the fence without triggering the alarm.

Features:

- Covers double brick walls
- Not easy to bend
- Easy to install
- Additional insulators can be added onto the back of the 8 wire bracket, creating a 9 wire or 10 wire bracket
- Large base plate for stronger mounting (footing)
