

## U-TYPE LINE CLAMP

The U-type Line Clamps are used to join and electrically connect cables, wires and poly ropes. This line clamp ensures that a good electrical connection is maintained between the joints so that the electric fence functions correctly.

### Features:

- Is used for up to 2.24mm wires
- Can connect 6mm poly ropes and high voltage (HT) cables

### Specifications:

Size 8mm  
Material XL Galvanised
